#### HEALTH AND WELFARE

The Breeder has taken every care with breeding, rearing and the welfare of the Dog. The Dog is believed to be in good health and sold in good faith. The Breeder makes no warranty however as to the health or disposition of the Dog.

Every effort has been made to avoid any possible inherited conditions. Conditions known/thought to be inherited in the breed are hip and elbow dysplasia. Relevant, existing screening schemes have been used for hip and elbow dysplasia and copies of relevant results have been provided.

The Purchaser(s) is strongly advised to take the Dog to their vet, soon after purchase, for a general check and advice on inoculations and worming.

The Purchaser(s) shall have 7 days to have the dog examined by a practising veterinary surgeon and shall have the right during a period

not exceeding 5 days after such examination to return the Dog because of a defect on production of a written report from the said veterinary surgeon, at which time the Purchaser(s) will be refunded the full purchase price.

Should it become necessary, the Purchaser(s) should be aware that the return of a Dog can be very difficult, especially emotionally and, having drawn the attention of the Purchaser(s) to this, the Breeder cannot be held responsible for any distress caused by the return of the Dog.

#### POTENTIAL OF DOG

Although any descriptions of the Dog as being show or trail quality is given in good faith, it is a condition of this sale that no warranty can be given as to the ultimate show or breeding potential on maturity of the Dog.

#### ENDORSEMENTS

Under kennel Club regulations, there are two endorsements that may be placed on a Dog's record, by the registered owner of a dog, whilst the dog is still in their possession. A breeder therefore, is entitled to place two endorsements on a puppy's record with the Kennel Club: One restricts registration of its future offspring (progeny) and the other prevents the issue of an export pedigree.

This Dog is subject to the following Kennel Club endorsements, 'progeny not eligible for endorsement' and 'not eligible for export.'

Endorsements can be lifted by the person who placed them, and that person would need to send a written and signed instruction to this effect to the Kennel Club.

The endorsements will be lifted at the Breeders discretion subject to the following:

1. The Dog is checked by the Veterinary Surgeon and given a clean bill of health.
2. The Dog undergoes all relevant tests for heredity diseases/conditions that occur in this breed as set by the Kennel Club.
3. The Dog is micro-chipped or DNA tested
4. The Dog has all current vaccinations

#### REHOMING OF THE DOG

The Purchaser(s) agree that if, any stage in the Dog's life, the Purchaser(s) need to rehome the Dog, the Breeder will be the first to be informed and the Purchaser(s) will, if the Breeder requests, return the

Dog to the Breeder. The Breeder will offer every reasonable assistance to find a new home. I also understand that
